

NRB

DARING TO COMMIT

ENVIRONMENTAL POLICY

Environnemental Management

1. Objective

The environmental policy provides the link between NRB's global strategy and the environmental management system (EMS), in order to control and take account of our environmental impact.

2. Scope

This policy applies to the activities and employees of NRB.

3. Commitment

We believe that companies have a responsibility to adopt good environmental practices and to operate in a sustainable manner.

We are therefore committed to do our part to protect the environment, preventing pollution and continually improving our environmental performance as an integral and fundamental part of our business strategy and operating methods.

4. Basic Rules

Our policy is as follows:

- Fully support and meet or exceed the requirements of applicable environmental legislation and codes of practice and fulfill our compliance obligations;
- **Reduce our energy consumption**, both for the operation of our data centres and our building, and continue our efforts to generate our own power;
- Optimising our consumption of resources in general, in particular by applying a **3R approach** since the **purchasing phase** :
 - **Reduce** - quantities and hazards for humans or nature
 - **Reuse**
 - **Recycle**
- To help customers, through our IT products and solutions, to reduce the environmental impact of their activities and improve environmental efficiency;
- Encourage our employees to work towards improving the environment, taking into account the impact of their professional activities and their civic responsibilities.
